# The Solution.

---

## Network Support

With our experienced engineers working around the clock, your business and network will always be secure and fully supported.

## Antivirus

Our antivirus solution will actively defend your users from cyber attacks and protect your data behind the scenes at all times.

## Patch Management & Remote Machine Monitoring

Our experienced engineers can remotely access your devices to perform necessary updates and patches, allowing you to work securely and with no interruptions.

## Microsoft 365 Business Standard

Microsoft 365 Business Standard provides your users with email, file storage, Microsoft Teams, security and Microsoft office applications.

## Encryption as a Service

Encryption allows your organisation to protect sensitive and confidential data from cyber criminals- making it completely unusable if accessed.

## Multi Factor Authentication as a Service

MFA provides an extra layer of protection, meaning that a compromised username or password cannot be used by a hacker - keeping your data secure.

# The Solution.

---

## Stay Private Encryption

Stay Private offers military-grade encryption to your emails, ensuring only the intended recipient can read the email content. It keeps the confidentials, confidential!

## Advanced Antispam

Our advanced Antispam solution can detect irregular emails and flag them so you don't have to receive spam overflowing your inbox creating a risk for cyber attacks.

## Microsoft 365 SaaS Backups

Backups are imperative in case of any disaster, and makes sure that all your data can be recovered, exactly as you left it ensuring business continuity. Best thing, our Backups allows for infinite retention!

## End User Security Training

Personalised security training provides your team with an understanding of current cyber security threats, so they know how to act to protect themselves and your organisation.

## Zero Trust Security Key

This hardware key provides an extra layer of security so that you can be sure, only you can access your data. These can be de-activated at any time to block access when needed.

## Company Extranet

We will build a Company Extranet personalised for your organisations needs. This central hub is a shared platform ideal for collaboration and storage of company wide information.

# Our Accolades.

In 2021 we are finalist for awards from 'Most Innovative MSP' to 'Diversity Award'.  
We have previously been recognised for our charity efforts, which led us to winning 'Hertfordshire Business Awards' in 2018 and nominated us as finalists for several Comms Business Awards.  
We won the 'Hertfordshire Business Awards' for our successful programme with YMCA, as a recognition for the workshops and time we took out with the young adults. An award and recognition we are incredible proud of.

# Our Accreditations.

---

We work with the best partners in the industry, so we can make sure to offer you with the best possible solutions that will make a true difference to your business, make your more efficient, more productive and help you scale.

# Our CSR.

---

## Charity

We are strong believers that company growth and corporate responsibility goes hand in hand. Therefore, we have for the last many years started several CSR programmes with our community. During our charity efforts we have raised over £25,000, run successful mentoring programmes with our local Youth Centre and one of our founders, Sohin, has trekked both the Himalayas and Antarctica to raise donations.

## Diversity & Equality

For our Team we have always thought that a diverse team, brings the best and most creative solutions. Diversity is more than just gender. We have built our team with this in mind and are very proud of the diverse culture you'll find in our offices. Therefore, we are proud to have a very diverse team where in 2020, 56% of our employees were women, 30 % has a heritage outside England and 6 languages can be spoken in our offices!

## Environment

Recycling and a thoughtful approach to resources have always been a part of our project planning. This year we are fulfilling our biggest commitment to the environment yet, as we have gone Carbon Neutral in 2021.

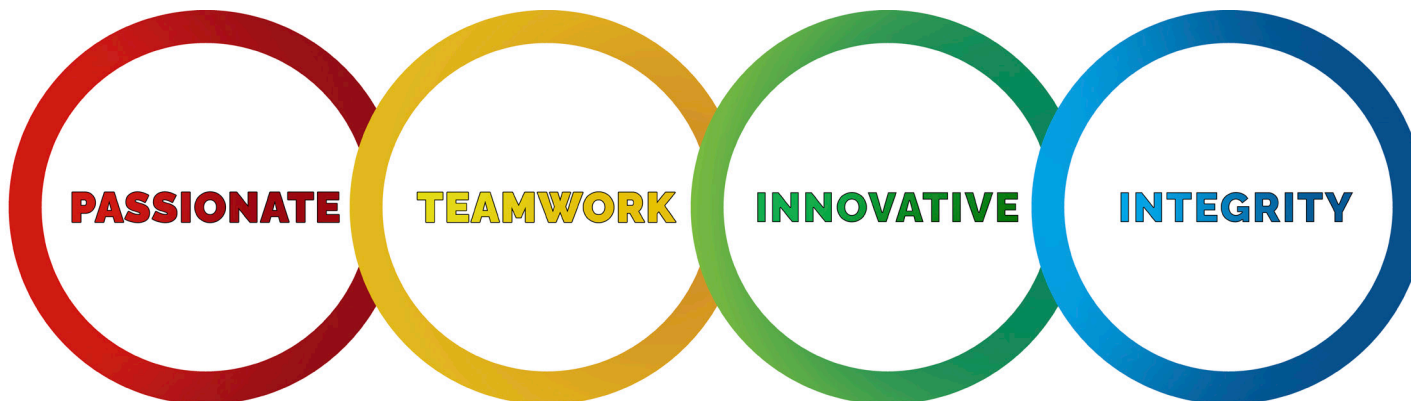

# 15 Years of Redsquad.

---

At Redsquad we are all about making a difference to our customers with the use of technology, as an innovative provider of solutions within IoT, Cyber security, ICT, Data Connectivity & Voice. We are here to improve our customers businesses & operations, and with the use of technology make them more efficient, increase productivity and reduce costs.

This year we are proud to celebrate our 15th year anniversary –  
and 15 years of making a difference to our customers.
